PROFESSIONAL SUMMARY

Technical Lead with **9+ years of experience** designing and delivering **enterprise-scale cloud-native platforms** across Healthcare, Banking, and Cloud Security domains. Proven track record of **leading teams of up to 10 engineers**, mentoring developers, driving architecture discussions, and **owning critical services end-to-end**. Experienced in distributed systems, event-driven architectures, GraphQL platforms, secure APIs, cloud modernization, and scalable microservices using Java, Spring Boot, Kafka, AWS, Azure, Kubernetes, ReactJS, and GraphQL.

LEADERSHIP HIGHLIGHTS

- Led Agile teams of **8-10 engineers** across backend, frontend, and QA functions.
- Mentored **5+ engineers** through code reviews, design reviews, and technical coaching.
- Conducted **technical interviews** and contributed to **hiring decisions**.
- Led sprint planning, estimation, stakeholder communication, **release management**, and production support.
- Collaborated with senior architects on **platform architecture** and enterprise system design.

PROFESSIONAL EXPERIENCE

Publicis Sapient – Senior Associate L2

Jan 2023 – Present

Project: OptumRx Meteor

- Led a **cross-functional team of 8-10 engineers** delivering enterprise healthcare applications serving **750K+ users**.
- **Owned the GraphQL Consumer Service end-to-end**, acting as the integration layer between **5 upstream systems** and multiple downstream consumers.
- Collaborated with senior architects to design **scalable service architecture**, API strategies, and data integration patterns.
- Designed and developed microservices using **Java, Spring Boot, Kafka, MongoDB, Redis, and GraphQL**.
- Implemented **Redis-based caching** for frequently accessed queries and UI reference data.
- Built secure enterprise APIs using **OAuth2, PingFederate, and Active Directory** integration.
- Designed **Kafka-based event-driven workflows** with retry and DLQ handling.
- Built the **ReactJS application from the ground up** and established a **micro-frontend architecture**.
- Established engineering standards around testing, **CI/CD**, code quality, and deployment practices.

Deloitte – Product Engineer II

Jun 2021 – Jan 2023

Project: ConvergeHealth Data Asset Explorer

- Built **cloud-native microservices on AWS** using Lambda, EC2, ECS, EKS, API Gateway, RDS, DynamoDB, SQS, SNS, and S3.
- Developed **event-driven healthcare analytics workflows** and secure data discovery platforms.
- Automated infrastructure provisioning and deployment processes using **Terraform**.
- Implemented **Elasticsearch-powered search** capabilities and Liquibase migration strategies.
- Integrated **AWS Personalize** recommendation services and implemented security controls using **IAM, KMS, and Secrets Manager**.

Coriolis Technologies – Member of Technical Staff

Jul 2018 – Jun 2021

Project: CipherTrust Cloud Key Management (CCKM)

- Developed **enterprise key management** capabilities supporting **AWS, Azure, and GCP** environments.
- Implemented automated **key rotation workflows** and **HSM integrations** using Thales Luna and SafeNet.
- Built **REST APIs** using Spring Boot and automated deployments through **GitLab CI/CD** pipelines.
- Worked extensively with **AWS KMS**, encryption services, and cloud security workflows.

Johnson Controls – Graduate Engineer Trainee

Aug 2017 – Jul 2018

Project: Metasys

- Built user management microservices and owned **JWT-based authentication and SSO** implementation end-to-end.
- Implemented **Spring Security** authorization controls and API security mechanisms.
- Contributed to the **migration of a legacy monolithic application to microservices**.

TECHNICAL SKILLS

Languages	Java, Python, JavaScript, TypeScript
Backend	Spring Boot, Spring Cloud, Spring Security, Hibernate, JPA, REST APIs, GraphQL
Cloud & DevOps	AWS, Azure, Kubernetes (EKS/AKS), Docker, Terraform, GitLab CI/CD, Jenkins
Messaging	Kafka, RabbitMQ
Databases	MongoDB, PostgreSQL, MySQL, Redis, DynamoDB
Frontend	ReactJS, Redux, React Query, Material UI, Storybook
Security	OAuth2, JWT, PingFederate, Active Directory, AWS KMS, Secrets Manager

CERTIFICATIONS

AWS Certified Solutions Architect – Associate (2023)

EDUCATION

Bachelor of Engineering (Information Technology) – Pune University, 2017

Diploma in Information Technology – MSBTE, 2014
